Product Profile
Stock Boxes
by Maxpack

Single Wall

Double Wall

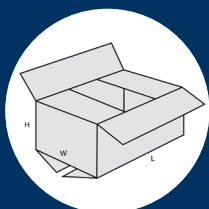

Easy to Assemble

Ideal for Small
& Large Items

Cost-effective

FEFCO 0201

Stock Boxes are ideal solutions for storage, transportation and packaging of goods. Available in both single and double wall.

Purpose

Pack, store and transport small or large goods in protective packaging at a cost-effective price.

Challenges

Made to measure boxes often have long lead times with high minimum quantities required for production. Long lead times can result in a halt in the day to day operations of a business.

Solution

Produced in high volume, Stock Cartons provide a cost effective, readily available solution for businesses to keep their shipping operation going without the obstacle of stock shortages.

Single walls are great if you have smaller items that need to be shipped. Easily assembled and lightweight, these boxes are great for items that don't need large amounts of protection.

Double wall cartons are great for items that need extra protection. Crush resistant and stronger than single wall cartons, double walls give you peace of mind when you're shipping and delivering products. Easy-to-assemble and flat packed on delivery to easily store.

Benefits

- Lightweight
- Easy to assemble
- Cost-effective solution for small-medium businesses
- Easily stored

Single Wall Stock Boxes are the ideal solutions for storage, transportation and packaging of goods.

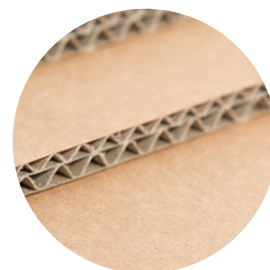

Single walls are great cost-effective items if you have smaller items that need to be shipped. Easily assembled and lightweight, single wall boxes from Maxpack are great for items that don't need large amounts of protection.
