Protecting Your Production®

Environmentally sustainable industrial packaging products, customisation, systems and multi-site stock management for the manufacturing, distribution and fulfilment sectors.

Issue date: April 2022

Subject to availability and Maxpack terms and conditions of sale.
All prices exclude VAT. Prices accurate at the date of issue.

Dear Customer

Welcome to the 5th edition of our Product Book.

Thank you to the many, many customers who have given us feedback along our journey since 1996, helping ensure that we continue to grow and thrive with you, and remain focussed on what is important for you today and in the future:

Fast Response

Our aim is to respond within 15 minutes to orders, enquiries and questions.

Fast Delivery

Using our own delivery vehicles and team of delivery drivers, we provide reliable next working day delivery on orders placed before 3.30pm.

Boots on the ground

One of our local team will be the first to site, supporting and helping you find the best way to pack sustainably, efficiently and cost effectively.

Sustainability

We have a growing range of products that are either eliminating plastic, reducing plastic or embracing the minimum of 30% recycled content.

Peace of Mind

If you order the wrong product, or if you have a quality concern about any product, you can be sure that we will correct it fast and ensure that you have the right product to do the job.

We look forward to working with you on the mission of **Protecting Your Production** during 2022.

Yours sincerely

Russ Maxim
Managing Director

Reduce. Reuse. Replace.

Leading Change

Since 1996 we have innovated with key packaging products to reduce the impact on the environment. The cost to the consumer and cost to the environment is a major factor when we are developing new products. The result is packaging that helps the world's leading companies improve their environmental, ethical and social impact.

Research & Development

Spherical approach to the needs of the customer, journey of the product and the sustainability of the material.

Sustainability

In every business sector we need to integrate sustainability into our strategy. We have to act.

Support

Change is a challenge. It requires knowledge and experience to make it happen. We promise to support.

Sustainability Key

Keep a look out for our range of eco products throughout this product book which we have identified with an **Eco** tag. In order to qualify for eco status, these products will feature one or more of the attributes listed below.

Foam Lined Carton

These foam-lined cartons are an excellent alternative to mail bags or postal cartons for items that need extra protection. With a thick cardboard outer and a soft, non-abrasive foam lining, they're tough on the outside and protective on the inside.

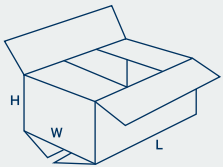

Ideal for electronics | Easy to build and open | Can be used with tape or strapping for extra security

SKU	Size	Pack Qty	Unit Price
J0487	360 x 280 x 80mm	25	£3.10 / Each

How to measure a carton/box

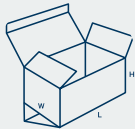

The dimensions of a box are set out as follows:

Length (L) x Width (W) x Height (H)

Paper Tape

Eco

Economy Self Adhesive Paper Tape

Self-adhesive brown paper tape that has an excellent initial grab or tackiness making it ideal for sealing cartons. The backing makes it difficult for the tape to stick to itself which encourages single strip taping rather than wasted over taping.

Biodegradable and 100% recyclable | Self-adhesive | Can be printed for branding purposes | FSC Approved Sustainable Paper Source

Premium Self Adhesive Paper Tape

PaperTEK™ 818 is 60gsm paper with a good quality long lasting adhesive that can be used for a variety of applications. Adheres very well to itself. Unlike gummed paper tape, PaperTEK™ 818 is self adhesive, ready to apply and can be used to seal boxes very effectively. Also used widely as a picture frame backing tape.

SKU	Size	Brand	Information	Pack Qty	Unit Price
A1695	100mm x 50m	PaperTEK™ 818	Paper with Solvent Adhesive	18	£4.14 / Roll

PaperTEK™

PaperTEK™ 818 is a compostable and 100% recyclable paper tape.

The use of polypropylene or PVC tape creates mixed waste when used on corrugated boxes. This cannot be recycled unless it is separated so often goes to landfill.

PaperTEK™ 818 offers a sustainable solution for businesses, allowing boxes and tape to be disposed of in the same waste channel saving time and reducing landfill or litter.

Paper Tape

Eco

AquaTEK™ Gummed Paper Tape

Gummed paper tape performs well on all grades of cardboard and when applied, creates a permanent seal. Gummed paper tape requires water to activate the adhesive.

Compostable and sustainable | Professional finish for parcels | Single strip needed to seal

SKU	Size	Information	Pack Qty	Unit Price
A1760	48mm x 200m	60gsm	30	£3.88 / Roll
A1802	48mm x 200m	90gsm for use in auto machine	24	£4.86 / Roll

X7214	50mm	Random size case taper, air assisted	1	POA

Gummed Paper Tape is the ideal alternative and replacement for plastic tapes. It requires water to activate the adhesive and when applied, creates a permanent seal.

Polypropylene, or PVC Tape, creates mixed waste when used on corrugated boxes. This cannot be recycled unless it is separated which is time consuming. Cartons sealed with these tapes can also be opened and resealed easily without detection.

Gummed paper tape allows boxes and tape to be disposed of in the same waste channel. Once a carton is sealed with gummed paper tape, it is tamper evident, reducing the risk of theft during transit.

A7161	135mm x 100m	18	£9.07 / Roll

Floor Marking Tape

These rolls of floor marking tape are extremely durable and hard wearing. They can be used for lane identification, floor markings in sports, and colour coding storage areas in the warehouse.

Range of colours | **Highly visible** | **Highlights dangerous or important areas** | **Abrasion and tear resistant**

SKU	Size	Colour	Pack Qty	Unit Price
A2390	50mm x 33m	Red & White	24	£6.10 / Roll
A2410	50mm x 33m	Black & Yellow	24	£3.33 / Roll

Industrial Tapes

Cloth Tape

Cloth tape, also known as duct tape, is a heavy duty and water resistant tape for interior and exterior use. It can bond to virtually any surface and is an ideal solution for temporary repairs and quick fixes.

Ability to hold, seal and bundle | **Durable and tear resistant**

SKU	Size	Colour	Pack Qty	Unit Price
A2630	50mm x 50m	Silver	24	£3.07 / Roll
A2620	50mm x 50m	Black	24	£3.07 / Roll

Barrier Tapes

Ideal for marking potentially hazardous areas. The non-adhesive tape is printed on both sides with bright diagonal stripes. It can be used to signal "no go" areas in the warehouse and used to divide up working areas.

Helps to prevent accidents in the workplace | **Easily tied and torn by hand** | **Convenient dispensing box** | **Highly visible**

SKU	Size	Colour	Pack Qty	Unit Price
A2450	72mm x 500m	Red & White	4	£11.37 / Roll
A2460	72mm x 500m	Black & Yellow	4	£6.75 / Roll

Industrial Tapes

Yellow Polyester Tape

Designed for high-temperature holding. Also known as ‘Flash Tapes’ it can be used for splicing or high-temperature operations such as powder coating. It maintains its flexibility whilst providing thermal and chemical resistance.

Temperature and chemical resistant | Ideal for holding parts during composite bonding | Leaves no residue after removal

SKU	Size	Pack Qty	Unit Price
A3001	25mm x 66m	48	£2.99 / Roll
A3000	50mm x 66m	24	£4.99 / Roll

NANOSTRETCH™

NanoStretch™ is a machine pallet wrap that uses high technology polymers, produced at lower temperatures to achieve greater holding force and puncture resistance.

The co-extrusion process results in films that are up to 67 layers and around 40% thinner whilst improving load security.

When combined with a pre-stretch wrapping machine like the Robopack 708 LP savings of over 50% can be achieved. [See next page for product details...](#)

Less waste

Reduce wrapping cost

Improve pallet stability

Time-Saving

Machine Pallet Wrap

Eco

NanoStretch™ Machine Pallet Wrap

Less waste, less plastics tax, reduced wrapping cost & improved pallet stability. Using high technology polymers and up to 67 layer co-extrusion you can achieve greater holding and puncture strength with films that are around 40% thinner.

Reduces plastic waste by up to 60% | Increased load stability
| Cuts wrapping costs by up to 50% | Consistent stretch performance

Xtenser 5th Manual Mobile Stretchwrap

Designed to make the wrapping process quick and simple. It consists of a friction roller carriage that allows the user to adjust the tension of the film to the specification of a pallet load. It can be used on any sized pallet or object that needs protecting with stretch wrap.

Easy to use | Portable | Simple film loading | Strong and sturdy

SKU	Pack Qty	Unit Price
X8196	1	POA

Machine Pallet Wrap

Robopac Ecoplat Plus Base

High quality reliable entry level turntable stretchwrapping machine. New HMI interface is more intuitive and comes with more features. Reliability and sturdiness are guaranteed thanks to following the strictest safety and quality protocols.

Top and bottom wraps | Upward-downward carriage speed | Turntable rotation speed | IP54 – protection against dust and water

SKU	Pack Qty	Unit Price
X7597	1	£2,895.00 / Each

Robopac Eco Plus FRD

Modern wrapping machine for small and medium size operations. The FRD model has an LED control panel that allows very simple and intuitive use of the many available wrapping functions and saves.

Excellent for light products | Pre saved eco friendly mode | Designed to wrap 10 to 15 loads per hour

SKU	Pack Qty	Unit Price
X7581	1	£3,195.00 / Each

Robopac Ecowrap XL

Semi-automatic rotating arm stretch wrapping machine ideal for unstable and heavy products. The wrapping arm is suitable for fragile and bulky products, and works perfectly in a limited space.

Carriage with mechanical brake for standard film or coreless film | Multifunctional control panel with joystick

SKU	Pack Qty	Unit Price
X7594	1	POA

Machine Pallet Wrap

Robopac Masterplat PGS 250%

Robust machine made high strength steel finished with anti-corrosion paint. Can be adjusted for 200 or 250% film.

Saves on waste | Economically viable | Equipped with multiple safety features | Designed for wrapping 30 to 45 loads per day

SKU	Pack Qty	Unit Price
X7582	1	£4,495.00 / Each

Robopac Rotoplat 508 PDS 250%

High end semi-automatic turntable stretch wrapping machine that comes with a full turntable for wrapping pallets and products. The PDS film carriage is a powered friction pre-stretch system up to 250%.

Control wrapping force and film placement | Slip resistant turntable Heavy duty and robust | Forklift portable from front and back

SKU	Pack Qty	Unit Price
X7586	1	£6,595.00 / Each

Robopac Rotoplat 708 PVS 400%

The wrapping machine is equipped with a wrapping unit PVS-motorized pre stretching system with two independent engines and two cylinders that rotate at different speeds. The stretch ratio is adjustable from 150% up to 400%.

Easy and fast loading | Less force on sharp corners | Tighter wrapping at the base | Reduce damage and fewer film breaks

SKU	Pack Qty	Unit Price
X7518	1	£6,995.00 / Each

Machine Pallet Wrap

**Rotoplat DW**

Semi-automatic stretch wrapping turntable especially designed for wrapping windows, doors, and other finished/semi finished products.

Specialised equipment, ideal for windows and doors |
Height adjustable arm with the upper grip of the product |
Optional co-wrapping in bubble wrap and stretch

SKU	Pack Qty	Unit Price
X7602	1	POA

**Robopac Technoplat CW 708 PVS**

Fully automatic machine with powered stretch system controlled by two independent motors. Stretches from 150% to 400% and has an automatic clamping, cutting and welding system that ensures the film tail is attached to the pallet.

Offers complete and adjustable control | Innovative and flexible

SKU	Pack Qty	Unit Price
X7587	1	POA

**Robopac Technoplat 3000 PGS**

High performance, highly automated wrapping station for end of line packaging. The automatic wrapping machine is equipped with a driven conveyor, automatic clamping, cutting and welding unit with a fixed gear (200%).

High productivity | Economically viable | Inbuilt sophisticated technology | Powered pre-stretch with fixed gears

SKU	Pack Qty	Unit Price
X7592	1	POA

Machine Pallet Wrap

**Robopac Technoplat 3000 PVS**

High performance, highly automated wrapping station for end of line packaging. The automatic wrapping machine is equipped with a driven conveyor, automatic clamping, cutting and welding unit with powered stretch system controlled by two independent motors.

High productivity | Economically viable | Inbuilt sophisticated technology | Pre-stretch of 150% to 400%

SKU	Pack Qty	Unit Price
X7593	1	POA

**Robopac Robot S7 FR Standard 150%**

Mobile, battery driven wrapping machine for pallets and products. The automatic wrapping machine is not limited to product weight, size or placement. Great solution for those who need to wrap extremely large loads and the machine takes up very little floor space.

Easy to navigate touch screen control panel | Can reduce film usage by up to 55% | Simple to operate

SKU	Pack Qty	Unit Price
X7591	1	£6,195.00 / Each

**Robopac Robot Master**

New generation of economic self-propelled wrapping machines. The automatic wrapping machine can wrap up to 65 metres per minute and wrap up to 250 pallets per battery charge. Built and designed with different and demanding working conditions in mind.

Visible and audible warnings for added safety | Immediate stop buttons and emergency bumpers to prevent accidents

SKU	Pack Qty	Unit Price
X7590	1	£6,195.00 / Each

Machine Pallet Wrap

Robopac Rotary

Rotary arm stretch wrappers are ideal for wrapping unstable products and loads. The semi-automatic wrapping machine has excellent technical construction and is the ideal choice for effective and reliable wrapping.

Works perfectly in complex environments | Multiple configurations
Improves load containment | Reduces product damage

SKU	Pack Qty	Unit Price
X7595	1	POA

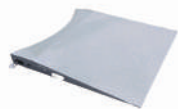

Robopac Rototech CW

The machine is equipped with the Film Clamp and Cut unit with spreader, in the CS version, and welder, in the CW version, that ensures the film tail is attached, cut, spread or welder and perfectly adhered to the pallet.

Intuitive touchscreen | Control containment force, rotation speed, roping and banding | Stretches from 150% to 400%

SKU	Pack Qty	Unit Price
X7596	1	POA

Ramp for Robopac Machine

These ramps are designed for compatibility with the Ecoplat and Rotoplat automatic wrapping machines. They fit with the turntables to assist with loading using pallet trucks. The ramp has a capacity of 1000kg and a width of 1000mm.

Low easy access | Roughened surface for added grip |
Floor anchor points

SKU	Pack Qty	Unit Price
X7598	1	POA

Machine Pallet Wrap

Pit Frame for Robopac Machine

With a Robopac Pit Frame option you can install your Robopac machine into the floor. Designed to be used in conjunction with machines such as the Robopac Technoplat CW 708 PDS.

Safely install your machines | Sturdy design

SKU	Pack Qty	Unit Price
X7600	1	POA

Weighing Scales for Robopac Machine

These weighing scales are designed to be used in conjunction with Robopac wrapping machines. The scales can have a maximum capacity of 2000kg and can be attached to a personal computer or printer.

Clear and easy to read display | Can be retrofitted to existing stretch wrapping machines | Simple to install, easy to handle

SKU	Pack Qty	Unit Price
X7601	1	POA

Top Clamp for Robopac Machine

This Robopac Top Clamp is designed to be used in conjunction with machines such as the Robopac Technoplat CW 708 PDS. A top clamp system allows you to keep lighter loads in place whilst they are being wrapped.

Keeps lighter loads together | Secure | Allows for greater safety |
Faster wrapping of loose packages

Ranpak®

Ranpak provide a full range of paper-based protective packaging for wrapping, cushioning and voidfill. It is renewable, compostable and curbside recyclable, helping to eliminate single use plastic.

The industrial and manufacturing sector require paper based, environmentally sustainable and compostable protection to ensure their products are protected in transit. Damage in transit means high cost of resolution.

Unprofessional appearance of packaging results in poor customer experience and slow packing methods mean inefficiencies and high labour costs.

Paper Wrapping

Reinforced Kraft Union Rolls

These Kraft reinforced union rolls are made up of two sheets of brown kraft paper separated by a layer of bitumen. They are perfect for waterproofing pallets or containers. They are also reinforced with glass fibre to offer excellent strength and waterproofing.

Excellent water resistance | **Durable and hard-wearing** | **Strong and tear resistant** | **Variety of applications**

SKU	Size	Thickness	Pack Qty	Unit Price
L0450	1000mm x 100m	140gsm	1	£87.94 / Roll

Eco

VCI Anti-Rust Paper

This anti-rust paper is 50gsm, vapor corrosion inhibitor (VCI) coated kraft paper. It is ideal for protecting metals from rust and corrosion in both transit and storage. VCI forms an invisible protective film on metals once packaged.

Long lasting protection from rusting | **Compostable**

SKU	Size	Thickness	Pack Qty	Unit Price
L0525	1000mm x 200m	50gsm	1	£40.34 / Roll

Kraft Union Paper Rolls

These Kraft union rolls are made up of two sheets of brown kraft paper separated by a layer of bitumen. This means that they offer great protection against water and water vapour. They are ideal for packaging and crate lining.

Water resistant | **Strong and tear resistant** | **Variety of applications**

PAPERSTRAP

Strap, bundle and secure parcels and products in an environmentally friendly way with PaperStrap.

Paper Strapping is a completely recyclable alternative to polypropylene plastic strapping and has been designed to be used in automatic or semi-automatic production operations.

Conventional polypropylene or polyester strapping is difficult to recycle and often gets put into landfill or ends up in the countryside, on verges, in rivers or even in the oceans. The strapping requires less energy to apply than its plastic counterparts and will work in the same machines with the same settings.

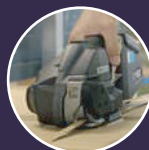

Environmentally Friendly

100% Recyclable

Biodegradable

Friction Weld Tool Compatible

Polyester Strapping

Woven Polyester Strapping

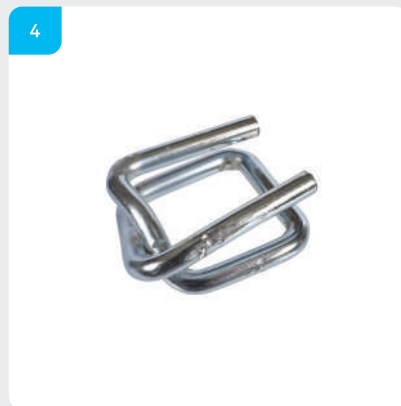

Woven polyester (PET) strapping is a low stretch, high tensile, cost-effective alternative to steel banding. Woven strapping prevents splits or tears along its length. It will also maintain tension over long periods of time.

Stays tight on loads that settle, shrink or expand | Lightweight and very strong | Easy on your hands

SKU	Size	Pack Qty	Unit Price
B0240	9mm x 500m	1	£20.31 / Roll

Steel Strapping

Oscilating Wound Steel Banding

Ideal for securing heavy palletised loads, plywood cases and sharp edged objects. It is supplied in oscillated wound coils (also known as mill wound) meaning it has a larger coil than ribbon wound with more meterage on the coil.

Tough strapping for demanding jobs | Ideal for very heavy banding applications | Extremely resistant to tears and corrosion

SKU	Size	Thickness	Roll Weight	Pack Qty	Unit Price
B0200	13mm x 1010m	0.5mm	50kg	50	£143.50 / Roll
B0210	16mm x 802m	0.5mm	50kg	50	£134.50 / Roll
B0230	19mm x 562m	0.6mm	50kg	50	£140.50 / Roll

Ribbon Wound Steel Banding

Ideal for securing heavy palletised loads, plywood cases and sharp edged objects. It is supplied in ribbon wound coils meaning that the width of the coil (when wound) is as wide as the strap itself.

Popular with heavy industries | Great for sharp-edged or irregular loads | Robust and secure

SKU	Size	Thickness	Roll Weight	Pack Qty	Unit Price
B0150	13mm x 343m	0.5mm	17kg	17	£48.79 / Roll

Polythene Equipment

Impulse Sealer

These impulse sealers are tabletop units that are ideal for sealing plastics and polythene. The sealers create a high quality seal on flat and gusseted polythene bags or polythene tubing.

Quick and easy to operate | Ideal for smaller operations |
Watertight and airtight seal

SKU	Size	Pack Qty	Unit Price
X0540	200mm	1	£52.27 / Each
X0560	300mm	1	£117.45 / Each
X0580	400mm	1	£132.37 / Each
X0600	500mm	1	£221.35 / Each

Impulse Sealer C/W Cutter

These impulse sealers are tabletop units that are ideal for sealing plastics and polythene. The sealer comes with a cutter, making it ideal for use with polythene tubing and creating custom bag sizes.

Quick and easy to operate | Ideal for small to medium operations |
Watertight and airtight seal | Assists in the creation of a range of bag sizes

SKU	Size	Pack Qty	Unit Price
X0550	200mm	1	£88.35 / Each
X0570	300mm	1	£88.31 / Each
X0590	400mm	1	£149.24 / Each

Polythene Equipment

Pro-Seal Impulse Sealer

The Pro-Seal series of heat sealers are ergonomically designed and simple to operate. They can be used with a wide range of materials including PE, PP, PA and PVC foil. The sealer comes with a cutter which is ideal for creating custom bag sizes.

Ideal for small to medium operations | Adjustable sealing time for different films | Watertight and airtight seal | Durable and sturdy

X7223	320mm	1	POA
X7224	420mm	1	POA
X7029	620mm	1	POA

Opti-Seal Standard Working Table

Opti-Seal tables provide a sturdy supporting surface for use with the Opti-Seal Semi-Auto Impulse Sealers. With the use of an Opti-Seal table you can ensure consistent seals every time. Also included with the table is a bag holder, an unrolling device and a foot pedal.

Hands-free operation with foot pedal | Allows for sit down operation | Consistent seals | Unrolling device gives efficient dispensing

SKU	Size	Pack Qty	Unit Price
X7232	420mm	1	POA
X7234	820mm	1	POA
X7235	1020mm	1	POA

Polythene Equipment

Unrolling Device For Layflat

These tabletop dispensers make the usage of layflat tubing much quicker and easier. The dispenser assists in the creation of custom bag sizes and helps to keep the process neat and organised.

Speeds up the packing process | Ideal for all operations using layflat tubing | Small tabletop footprint | Robust construction

SKU	Size	Pack Qty	Unit Price
X0610	300mm	1	£41.84 / Each
X0620	450mm	1	£77.32 / Each
X0630	600mm	1	£97.63 / Each

Shrinkit Economy Shrink Gun System

This shrink gun offers advanced aerodynamics that ensures even heat distribution over a wide area. This means a thinner and less expensive film can be used. The nozzle is covered by a shield to help prevent injury to the user.

Ergonomically designed | Economically friendly | Can be used for extended periods of time | Increases safety in the workplace

SKU	Pack Qty	Unit Price
X1110	1	£385.48 / Each

Polythene Equipment

Ripack 2200 Shrink Gun System

Provides heat to a large area in a short space of time and can be used with various types of film. The kit comes with a carrying case, hose, regulator and tools.

Increases safety in the workplace | Ergonomically designed | Lightweight and easy to use | Fast and effective shrinking

SKU	Pack Qty	Unit Price
X1100	1	POA

PSS Polythene Roll Dispenser

This roll dispenser can be used to quickly and easily dispense shrink film among other sheet materials that come on a core. It can extend up to two metres wide, allowing it to work with a range of different sized rolls. It comes on lockable castors and can hold up to three rolls.

Increases productivity and organisation in the workplace | Easy to install and extend | Portable and simple to move | Lockable wheels

SKU	Size	Pack Qty	Unit Price
X1112	1.2-2m	1	£149.34 / Each

GCT Gas Cylinder Trolley C/W Holster

Comes with heavy duty rubber wheels and is designed to safely carry a propane gas bottle. It also comes with a holster to carry the shrink gun at the same time, making it a portable workstation.

Hard wearing and durable | Helps keep the shrink wrapping process organised | Improves productivity

SKU	Pack Qty	Unit Price
X1111	1	£99.81 / Each

Shrinkfilm & Polythene Rolls

Centrefold Poly Sheeting

Polythene sheeting is typically used to protect items of all shapes and sizes from dust, dirt and accidental damage whilst in storage or transit. They are also useful to cover items during renovation and decorating. This roll is suitable for heavy duty floor or garden protection.

Centre-folded for ease of storage | Waterproof | Can be used for shrink wrapping | Range of sizes

SKU	Size	Thickness	Roll Weight	Pack Qty	Unit Price
N2170	1 / 2m	500g	25kg	1	£99.54 / Roll

Knives

Swan-Neck Safety Knife

This swan-neck safety knife is ideal for safely opening a range of packaging. The concealed blade makes it virtually impossible for accidental contact with the blade. The hole in the handle means the blade can be attached to the user for ease of access.

Lightweight | Improves safety in the workplace | Strong and dependable blade

SKU	Pack Qty	Unit Price
X1235	1	£1.18 / Each

Safety Knife With Retracting Blade

Features a retracting blade, where the blade will automatically retract into the casing as soon as the user eases off the pressure. Helps prevent accidents by dropped or mishandled knives. Right handed functionality.

Helps reduce accidents in the workplace | Multiple uses

SKU	Pack Qty	Unit Price
X1281	1	£3.39 / Each

Blade For SNR

Durable and light blades designed for both the right and left handed retractable safety knives (SNR). With 10 per pack it is a much cheaper alternative than buying completely new knives.

Easy to replace and install | Safely packaged | Durable | Cost-effective

SKU	Pack Qty	Unit Price
X1270	1	£1.37 / Each

Knives

Safety Knife With Retracting Blade

Features a retracting blade, where the blade will automatically retract into the casing as soon as the user eases off the pressure. Helps prevent accidents by dropped or mishandled knives. This blade is designed to work with retractable Stanley-type knives.

Helps reduce accidents in the workplace | Multiple uses | Easy to replace blade

SKU	Pack Qty	Unit Price
X1282	1	£8.02 / Each

Safety Cutter Knife

Maxpack's safety cutter knives are widely used for cutting stretch film, bubble wrap, polypropylene strapping, polyshrink film and more. The knife has a retractable blade and offers a firm grip for added safety.

Helps reduce accidents in the workplace | Improves productivity | Perfect for cutting all kinds of film and strapping

SKU	Pack Qty	Unit Price
X7010	1	£1.23 / Each

Heavy Duty Snap-Off Knife

This 18mm heavy duty knife has a snap-off design meaning that once the end-blade is blunt from use it can effortlessly be replaced with a new, sharp blade. The blade can be retracted into its plastic casing for safety and is lockable for efficient cutting.

Blades are easily snapped off
