

Product Profile
Gummed Paper Tape
by Maxpack

Environmentally
Friendly

100% Recyclable

Biodegradable

Fast Efficient
Dispensers

Tamper Evident

Professional Finish

Gummed paper tape is eco-friendly, biodegradable and 100% recyclable. It requires water to activate the adhesive and when applied, creates a permanent seal.

Purpose

Seal cartons and parcels for safe and secure transit.

Challenges

The use of polypropylene or PVC tape creates mixed waste when used on corrugated boxes. This cannot be recycled unless it is separated which is time consuming. Cartons sealed with these tapes can be opened and resealed easily without detection.

Solution

Gummed paper tape allows boxes and tape to be disposed of in the same waste channel. Once a carton is sealed with gummed paper tape, it is tamper evident, reducing the risk of theft during transit.

Benefits

- Environmentally friendly carton sealing
- 100% recyclable
- Biodegradable
- Professional finish for parcels
- Easily brandable
