Pallet Containment

Reducing unnecessary single-use plastics and helping you to transition to more sustainable pallet containment.

What Is Sustainable Pallet Containment?

Keeping your people and product safe while moving palletised goods is paramount, however, pressure is mounting on the UK's distribution network to reduce single-use packaging and transition to a more sustainable operation. Sustainable pallet containment solutions from Maxpack will secure your pallets during transit efficiently and effectively whilst also reducing the consumption of single-use packaging.

Who Is Sustainable Pallet Containment For?

Every business in the UK that moves palletised goods internally within their operation or when shipping to the customer will need a pallet containment solution.

sustainable Pallet Containment Solutions Are Ideal for:

Large online retailers such as Amazon, BooHoo and The Hut Group.

Department stores operating throughout the UK with an online presence and physical stores such as John Lewis, Selfridges and Harvey Nichols.

UK-wide supply chain organisations such as Bunzl, NHS and Bidfood.

Digital media companies such as Sky, Sony and BT Openreach.

Third-party logistics and distribution such as DHL, Unipart Group and Royal Mail.

Global manufacturers such as Jaguar Land Rover, JCB and Rolls Royce Aerospace.

UK food retailers such as Waitrose, Sainsbury's, Lidl and M&S.

Pharmaceutical manufacturers such as GlaxoSmithKline, AstraZeneca and Pfizer UK.

Did You Know

250 million pallets are currently in circulation within the UK.

Good To Know

Some key terminology to look out for when considering sustainable pallet containment.

Recyclable

For a product to be recyclable it has to be suitable for going through the process of being broken down or melted and remade into new products.

Recycled

To recycle is to use it again or to reuse waste material by converting it into something new. An example of recycled is when you return glass bottles, which are then processed into new glass products. To extract useful materials from garbage or waste.

Sustainable Source

A sustainable resource can be continuously replenished, or an endless amount can be harnessed and used without a decrease in supply.

Reusable & Returnable

Reusable packaging is used multiple times, often for the purpose of transporting products or protecting products in transport.

It is typically designed for durability, ease of use, ease of cleaning, and ease of repair and is ideally collapsible or nestable.

Compostable

If the packaging is home compostable, it can be placed in the compost bin or heap at home, along with other organic waste material such as fruit and vegetables, garden and grass cuttings.

Home compostable packaging component materials must decompose into organic soil at temperatures that home compost bins and heaps commonly reach.

Sustainable Innovation

Since 1996 we have innovated with key packaging products to reduce the impact on the environment. The cost to the consumer and cost to the environment is a major factor when we are developing new products.

The result is packaging that helps the world's leading companies improve their environmental, ethical and social impact.

Research & Development

Spherical approach to the needs of the customer, journey of the product and the sustainability of the material.

Sustainability

In every business sector we need to integrate sustainability into our strategy. We have to act.

Support

Change is a challenge. It requires knowledge and experience to make it happen. We promise to support.

PCNets

A re-usable and robust method of securing your product onto pallets.

Using PCNets will help your company become more efficient, effective and environmentally friendly. It is easily pulled down around your product, then secured to the bottom of the pallet.

The direct alternative to plastic pallet wrap.

What are PCNets?

PCNets are a re-usable and robust method of securing your product onto pallets, removing the need for single use and plastic based pallet wrap. Using PCNets will help your company become more efficient, effective and environmentally friendly.

Why use PCNets?

With the cambuckle tie downs on the top, the PCNets can adjust up to 400mm in height, to make removing product easy while keeping the rest of the products safe on the pallet. Simply loosen tiedown, pull the net down the side – take off one box or more from your pallet. Pull the net back into position, tighten straps and your goods are secured again – no need to re-wrap with more plastic. The PCNet will soon start saving you money as they can be reused time and again for 3 to 5 years depending on the application.

Pallet Containment Nets

PCNets

A re-usable and robust method of securing your product onto pallets, removing the need for plastic based pallet wrap. Using PCNets will help your company become more efficient, effective and environmentally friendly.

Returnable and reusable | End of life recyclable | No waste disposal costs

FAQs

How long does the PCNet last? The average life of a PCNet is 3 - 5 years or 500 - 1000 uses depending on the application and environment.

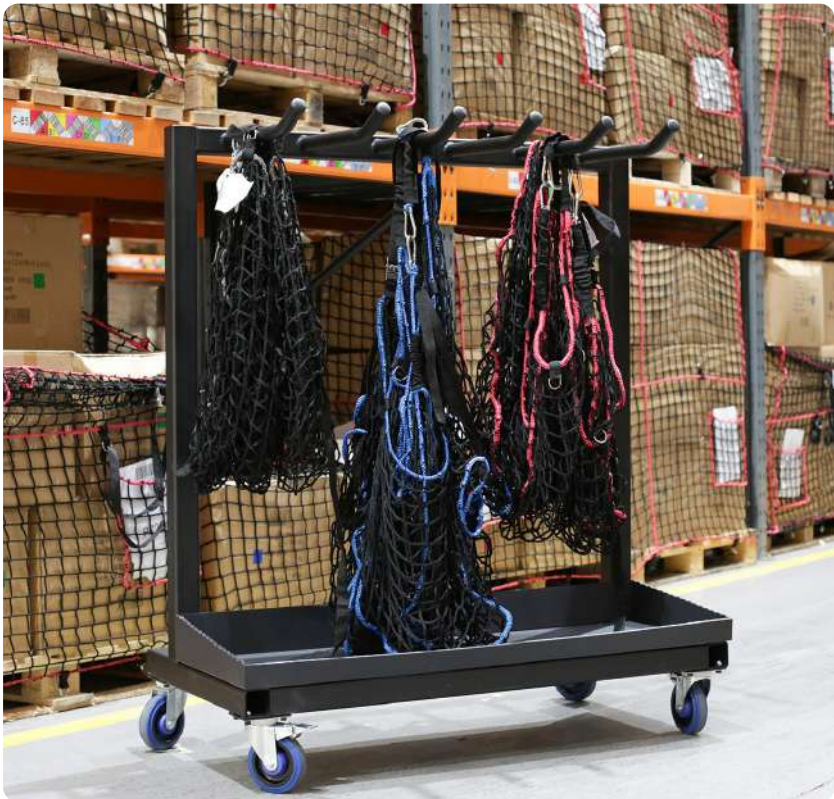

How soon will the PCNet save me money? PCNets will start saving you money after approximately 50 uses.

Why were PCNets developed? Designed and manufactured as a cost-effective reusable pallet wrap alternative to traditional methods of pallet containment, significantly reducing plastic waste and wrapping costs.

What types of pallets can PCNets be used on? PCNets are flexible and will meet the requirements of unusually shaped pallets. The elasticated edging ensures a tight fit preventing product movement for effective, efficient warehouse storage and distribution. Our innovative, high tensile pallet nets can be customised to meet your requirements. The nets retain their tenacity in all environments and are abrasion, water, and dirt resistant.

How safe are PCNets? The PCNet product meets the highest standards in performance, durability and functionally in a range of applications. Designed to ensure your company meets safety regulations for transport the nets also address staff safety, reducing accident and injury.

Mobile Pallet Net Storage Rack

Mobile Pallet Net Storage Rack

Mobile pallet net storage rack for keeping pallet nets safe and clean. It has 6 storage prongs to keep different sizes separate and heavy duty wheels, and brakes to enable mobile storage of the pallet nets close to where they are being applied to the pallets.

6 storage prongs | Heavy duty wheels & brakes | Robust tray | Keeps nets safe and clean

PAPERSTRAP

Strap, bundle and secure parcels and products in an environmentally friendly way with PaperStrap™.

Its an entirely recyclable alternative to polypropylene plastic strapping and has been designed to be used with hand tools or in semi-automatic and modified fully automatic strapping machines.

Sustainably strap and secure products with PaperStrap™

What is paper strapping?

Paper Strapping is an entirely recyclable alternative to polypropylene plastic strapping and has been designed to be used in manual or semi-automatic operations. The transition is seamless and offers an environmentally sustainable solution that eliminates plastic waste.

Why switch to paper strapping?

Conventional polypropylene or polyester strapping is challenging to recycle and often gets put into landfills or ends up in the countryside, on verges, in rivers or even in the oceans. Paper strapping is produced from a sustainable paper source and is 100% recyclable.

Approved for paper recycling

RISE

According to the RISE Research Institutes of Sweden AB, following an official product analysis: "considering the components, the paper strapping should be suited for recycling in established paper recycling systems".

PaperStrap™ Paper Strapping

PaperStrap™

Paper Strapping is an entirely recyclable alternative to polypropylene plastic strapping and has been designed to be used in automatic or semi-automatic production operations.

FAQs

Will paper strapping work with my machine? Yes, paper strapping works well with hand tools, seals and buckles. It also runs well in most semi-automatic strapping machines. It works well with light-duty friction weld battery tools. However we recommend you request a demonstration or trial to ensure paper strapping works for you.

How strong is paper strapping? The official breakstrain for 12mm paper strapping is 55ps. It is very important to check and test paper strapping for your application.

Is paper strapping recyclable? According to the RISE Research Institute of Sweden AB, following an official product analysis: “considering the components, the paper strapping should be suited for recycling in established paper recycling systems”.

Is paper strapping water resistant? Paper strapping is resistant to water for short periods. It is very important to check and test paper strapping for your application.

DRUM CLIP

Move your drums the smart way, with the reusable Drum Clip.

The reusable Drum Clip makes it easier to secure drums on a pallet, in a trailer or in a container. This means that the Drum Clip can be used for transporting drums on land and at sea.

Reusable Drum Clip

Reusable Drum Clip

Reusable Drum Clips are a simple yet effective tool for securing drums and barrels to pallets during transportation and storage. They can be reused many times, making them a cost-effective solution for businesses that transport or store large quantities of drums.

Very strong material | Can be reused many times | Quick and easy to apply to drums | Works with paper and plastic strapping

Woven Polyester Strapping

Woven Polyester Strapping

Woven polyester (PET) strapping is a low stretch, high tensile, cost-effective alternative to steel banding. Woven strapping prevents splits or tears along its length. It will also maintain tension over long periods of time.

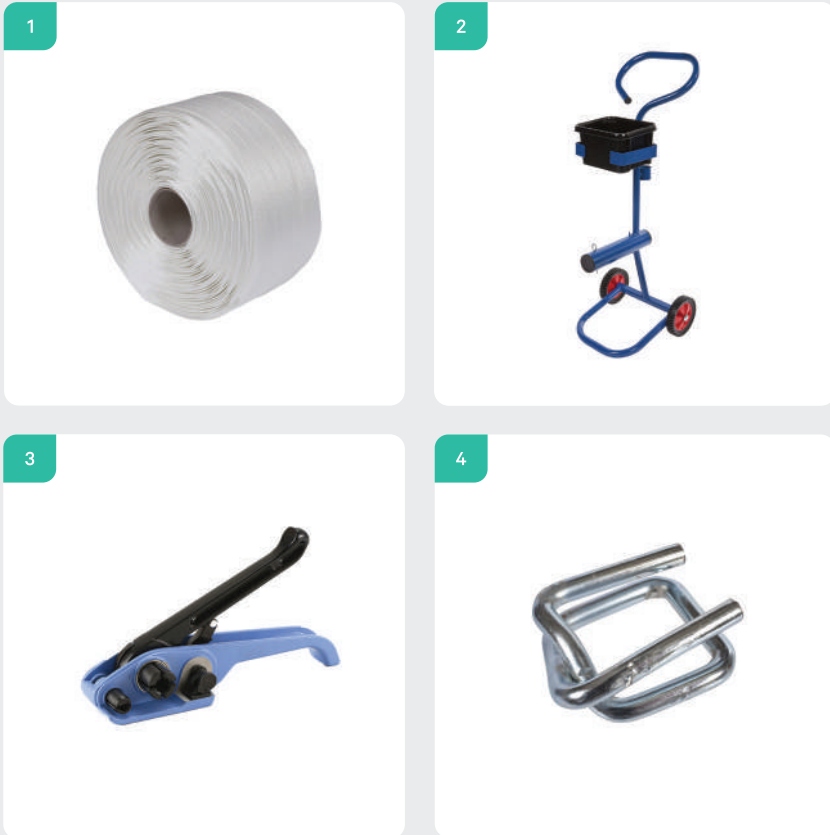

Stays tight on loads that settle, shrink or expand | Lightweight and very strong | Easy on your hands

C0310		Drumclip	£3.85

Woven Polyester Strapping Kit from £254.71

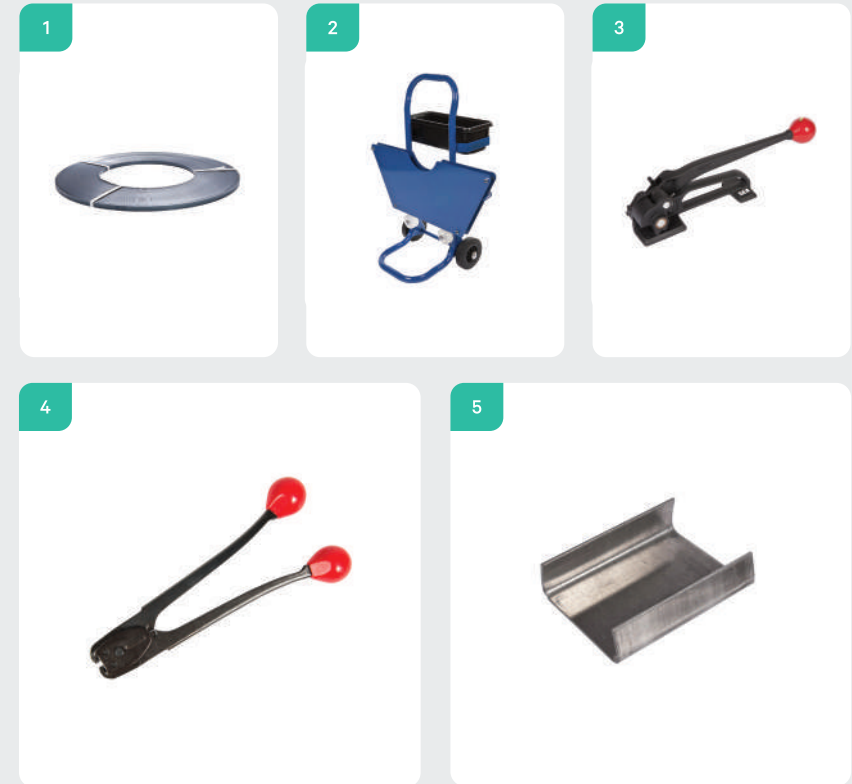

A combination of woven polyester strapping and equipment to get you started with strapping bulky loads with an extra heavy duty 100% recyclable woven plastic strap. Great for use on timber and other awkward loads.

- 1. B0260 | Woven Polyester Strapping, £57.58
- 2. W0230 | Mobile Dispenser For Woven Strap, £120.09
- 3. X0035 | STD Tensioner, £43.75
- 4. C0070 | Galvanised Strapping Buckles, £33.29

Steel Banding Kit from £328.63

A combination of steel strapping and equipment to get you started with strapping bulky loads with an extra heavy duty steel strap. Great for use on very heavy loads and products with sharp edges.

- 1. B0150 | Ribbon Wound Steel Banding, £53.89
- 2. W0270 | SD32 Mobile Strap Dispenser For R/W Steel, £148.77
- 3. X0060 | TLS20 Std Steel Strap Tensioner 19mm, £78.43
- 4. X0270 | TS19 Std Steel Strap Sealer, £30.89
- 5. C0180 | Snap On Seals, £16.65

Pallet Strapping Dispenser

Pallet strapping machines that place two straps simultaneously around a pallet in 6 seconds. This enables the strapping of pallets or other unit loads in half the time with half the effort taken by conventional manual methods and gives an immediate 50% cost, time and labour saving, and health and safety benefits for the employee.

Ribbon Wound Steel Strapping

Ribbon Wound Steel Strapping

Ideal for securing heavy palletised loads, plywood cases and sharp edged objects. It is supplied in ribbon wound coils meaning that the width of the coil (when wound) is as wide as the strap itself.

Popular with heavy industries | Great for sharp-edged or irregular loads | Robust and secure

SKU	Size	Roll Weight	Thickness	Pack Qty	Price
B0150	13mm x 343m	17kg	0.5mm	1	£53.89
B0160	16mm x 337m	20kg	0.5mm	1	£61.60
B0170	19mm x 337m	25kg	0.5mm	1	£80.25
B0180	25mm x 256m	41kg	0.8mm	1	£123.00

Works with...			
W0270		SD32 Mobile Strap Dispenser For R/W Steel	£148.77

Oscillating Wound Steel Strapping

Oscillating Wound Steel Strapping

Ideal for securing heavy palletised loads, plywood cases and sharp edged objects. It is supplied in oscillated wound coils (also known as mill wound) meaning it wound like a ball of string with more meterage on the coil.

Tough strapping for demanding jobs | Ideal for very heavy banding applications | Extremely resistant to tears and corrosion

SKU	Size	Roll Weight	Thickness	Pack Qty	Price
B0200	13mm x 1010m	50kg	0.5mm	1	£163.50

Sealless Tools & Strapping Cutters

Sealless Tool For Steel Strap

This sealless tool tensions and seals steel strapping in one motion, eliminating the need for separate tension and sealing tools. It provides a high quality seal every time and is easy to use.

Seal-less strap crimping mechanism | Faster action, less cost (no seals) | Reversible punching dies for extended life

SKU	Information	Pack Qty	Price
X0180	12mm Sealless Tool For Steel Strap	1	£795.00
X0190	16mm Sealless Tool For Steel Strap	1	£795.00
X0195	19mm Sealless Tool For Steel Strap	1	£795.00

SSC06 Safety Steel Cutter <25mm

These steel strapping cutters can be used to trim any excess strapping or used to cut the desired length of strapping you need from a dispenser. The tool has rubber pads that hold the strapping in place before cutting.

Heavy duty safety steel strapping cutters | Use with steel strapping widths up to 25mm | Rubber pads to hold the strapping in place

SKU	Information	Pack Qty	Price
X0340	SSC06 Safety Steel Cutter up to 25mm	1	£60.43

SSC04 Steel Safety Cutters

These steel strapping cutters can be used to trim any excess strapping. They can also be used to cut the desired length of strapping you need from a dispenser. They can be used with steel strapping up to 25mm wide.

General purpose steel strapping cutters | For cutting or trimming steel strapping | PVC handle grips for optimum safety

SKU	Information	Pack Qty	Price
X0335	SSC04 Steel Safety Cutters	1	£32.32

Seals For Steel Strapping

Lapover Seals for Steel Strapping

These lapover metal seals are made to work with steel strapping. Simply pull both ends of the strapping through and close with a strapping seal or combination tool.

Easily secures ends of strapping together | Ideal for irregular shaped packages | Range of sizes

SKU	Size	Information	Pack Qty	Price
C0210	12x25mm	For use with SRD13 sealer	1000	£23.42 / Pack
C0220	16x25mm	For use with SRD16 sealer	1000	£21.13 / Pack
C0230	19x25mm	For use with SRD19 sealer	2000	£28.29 / Pack

Pallet Strapping Machines

TP-733VLM Pallet Strapping Machine

The best choice for fully automatic operation in various pallet strapping applications. The TP-733VLM maximises the productivity by applying straps consistently and accurately on the pallet load, and minimises operational cost.

Fully automatic | Easy access for pallet with forklift
 | Friction weld sealing Technology | SIEMENS PLC and HMI

SKU	Information	Pack Qty	Price
X7381	TP-733VLM Pallet Strapping Machine	1	Contact Us

TMS300 Semi-Automatic Strapping Machine

Simply feed the strapping around the package and the machine automatically tensions and heat seals the strap. This strapping machine accepts 6mm, 9mm, 12mm and 16mm paper strap and polypropylene machine strapping on a 200mm or 280mm core.

Automatic tensioning & sealing | Fixed/swivel castors
 | Reliable control head | External manual strap tension adjustment

KraftStretch

Sustainable alternative to traditional plastic wrap for securing goods during transportation and storage.

KraftStretch Paper Pallet Wrap is an ideal choice for businesses looking to reduce single-use plastic packaging.

Paper Machine Pallet Wrap

KraftStretch Paper Pallet Wrap

Made from high-quality kraft paper, this wrap provides excellent strength and durability, with the added benefit of being recyclable and compostable. Paper pallet wrap is designed to fit tightly around pallets, providing a secure and stable load that can withstand the rigors of transportation and handling.

Made from 100% paper | 100% recyclable | Stretches up to 30% more in length | For use in pallet wrapping machines

NANOSTRETCH

**Cuts plastic waste, reduces cost
and improves stability.**

NanoStretch™ is high-performance, thin, machine pallet wrap that uses high technology polymers, produced at lower temperatures to achieve greater holding force and puncture resistance.

Reduced wrapping cost & improved pallet stability with NanoStretch™.

What is NanoStretch?

NanoStretch™ is a machine pallet wrap that uses high technology polymers, produced at lower temperatures to achieve greater holding force and puncture resistance.

Why switch to NanoStretch?

Using high technology polymers and up to 67 layer co-extrusion you can achieve greater holding and puncture strength with films that are around 40% thinner. When combined with a pre-stretch wrapping machine, like the Robopac 708 LP, savings of over 50% can be achieved.

NanoStretch™ Machine Pallet Wrap

NanoStretch™ Machine Palletwrap

Less waste, less plastics tax, reduced wrapping cost & improved pallet stability. Using high technology polymers and up to 67 layer co-extrusion you can achieve greater holding and puncture strength with films that are around 40% thinner.

Reduces plastic waste by up to 60% | Increased load stability
| Cuts wrapping costs by up to 50% | Consistent stretch performance

SKU	Information	Pack Qty	Price
D8230	NanoStretch™ 150 Machine Wrap 500mm	1	£87.28
D8240	NanoStretch™ 170 Machine Wrap 500mm	1	£84.77
D8250	NanoStretch™ 200 Machine Wrap 500mm	1	£82.89

Works with...			
X7518		Robopac - Rotoplat 708 PVS	£7,895

Watch Video

Scan to find out how to wrap pallets using NanoStretch™

FAQs

How easy is it to switch from my current machine pallet wrap to NanoStretch™? It's incredibly easy to switch. Watch our online video or book a demo today!

What can I expect to save after switching? Save up to 60% on plastic waste and up to 50% on wrapping costs.

What is the best wrapping machine to use with NanoStretch™? When combined with a power pre-stretch wrapping machine like the Robopac 708 LP savings of over 50% can comfortably be achieved.

Does it match the strength of more traditional machine wrap? Using high-technology polymers and up to 67 layer co-extrusion you can achieve greater holding and puncture strength with films that are around 40% thinner. Using NanoStretch™ is proven to increase load stability.

EcoTEK™

EcoTEK™ Ocean packing tape contains 30% recycled content.

The EcoTEK™ Ocean packing tape contains 30% recycled content and has a range of features that are designed to increase usability and reduce costs. Its small 1" core means you get a longer roll, more tape per box, greater value for money and reduced wastage.

EcoTEK™ Ocean Packing Tape System

EcoTEK™ Ocean Packing Tape

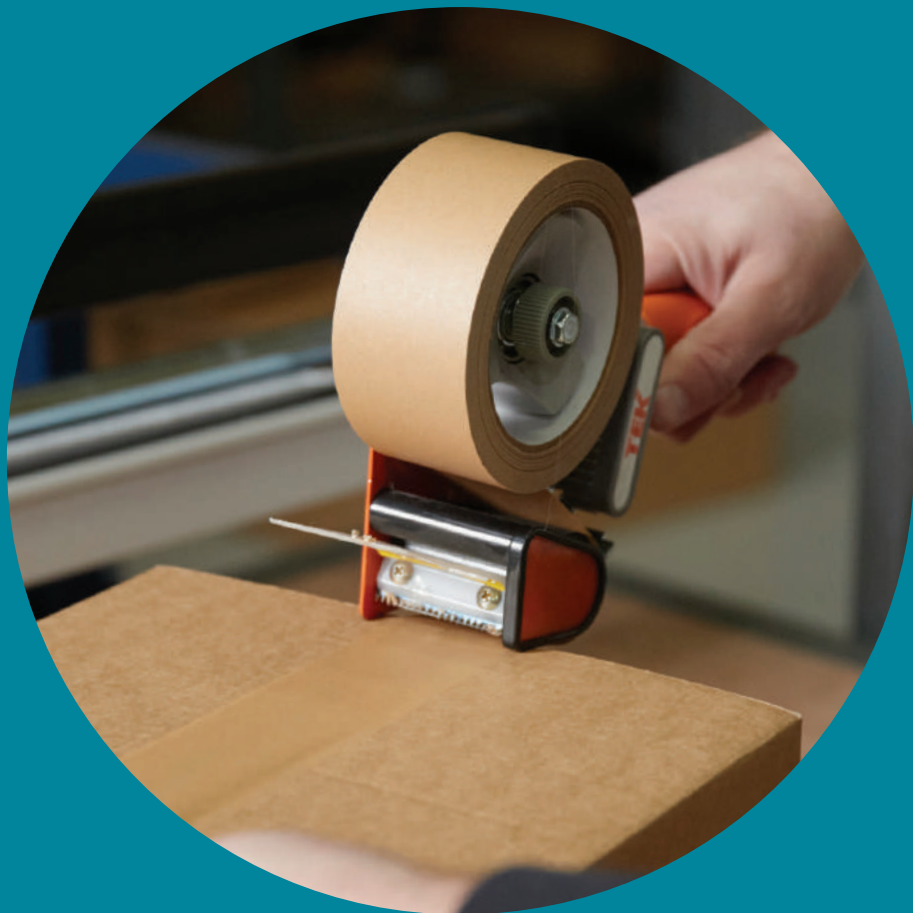

The EcoTEK™ Ocean packing tape contains 30% recycled content and has a range of features that are designed to increase usability and reduce costs. Its small 1" core means you get a longer roll, more tape per box, greater value for money and reduced wastage.

150m extra long roll | Samll 1 inch core | 2.27 x more tape per roll |
Reduced core wastage | Lower carbon footprint

SKU	Size	Colour	Pack Qty	Price
A8221	48mm x 150m	Brown	36	£1.28 / Each
A8231	48mm x 150m	Clear	36	£1.23 / Each

Works with...			
W8005		50mm Safe Silent EcoTEK™ Tape Dispenser	£16.26

PaperTEK™ is a compostable and 100% recyclable paper packing tape.

The use of polypropylene or PVC tape creates mixed waste when used on corrugated boxes. This cannot be recycled unless it is separated so often goes to landfill. PaperTEK™ offers a sustainable solution for businesses, allowing boxes and tape to be disposed together.

PaperTEK™ Paper Packing Tape

Self Adhesive Paper Tape

Self-adhesive brown paper tape that has an excellent initial grab or tackiness making it ideal for sealing cartons.

100% recyclable | Compostable | Self-adhesive | Can be printed for branding purposes | FSC approved sustainable paper source

AquaTEK™ Auto Gummed Paper Tape Dispenser

AquaTEK™ Auto Gummed Paper Tape Dispenser

Electric automatic dispenser for water activated gummed paper tape. Pre-set length buttons can be selected to dispense the right amount of tape for your carton. Speeds up the sealing of your cartons and provides a secure tamper evident closure that reduces pilferage and cuts down on single use plastic. Paper tape comes from sustainable source and 100% recyclable.

Speeds up carton sealing | Professional finish for parcels | Tamper proof taping | Reliable quick dispensing

Corrugated Paper Pallet Layer Pads

Anti-slip Pallet Sheets

Carboard Paper Pallet Layer Sheets

Pallet layer pads are a lightweight, cost effective alternative to corrugated layer pads and they can be used to help protect boxes or bags stacked on the pallet. These can be used at the bottom, inbetween layers or on top of your pallet load.

Use for separating & dividing | Help stabilise load

SKU	Size	Pack Qty	Price
L7107	900 x 1100mm	50	£12.99 / Pack
L7148	1200 x 1000mm	50	£13.99 / Pack
L7149	1200 x 800mm	50	£13.49 / Pack

Anti-slip Pallet Layer Sheets

Anti-slip pallet sheets increase the stability of your pallets. The unique coating on our anti-slip sheets reduce the movement of palletised goods when in storage or transit, therefore improving safety and reducing damage.

Unique friction coating | Made from recycled materials

SKU	Size	Pack Qty	Price
L7098	770 x 1170mm	50	£39.00 / Pack
L7097	970 x 1170mm	50	£41.00 / Pack

Corrugated Cardboard Layer Pads

Corrugated Cardboard Pallet Layer Pads

These lightweight and durable pads are made from high-quality corrugated cardboard, and are designed to be placed between layers of goods on a pallet, providing a protective barrier against damage caused by pressure, moisture, or temperature changes.

100% recyclable | Stack easily, maximising storage space | lightweight and easy to handle | can be customised to fit any size

Delivery

UK Mainland

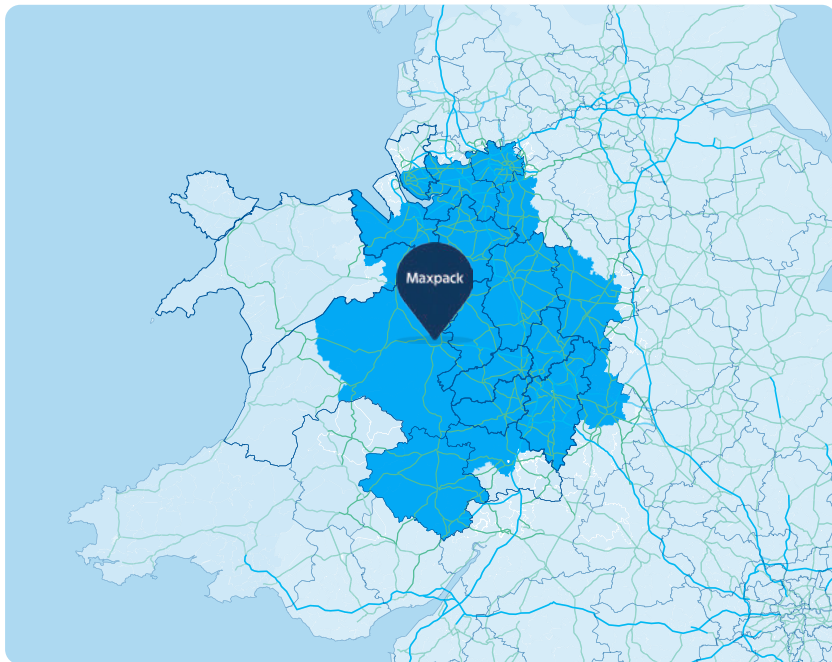

Within the region, delivery is next day, on orders placed before 3:30pm

Outside the regional area, delivery is within 2-3 days, on orders placed before 3.30pm.

The Region

The regional delivery area includes the following postcodes;

SY1, SY2, SY3, SY4, SY5, SY6, SY7, SY8, SY9, SY10, SY11, SY12, SY13, SY14 SY15, SY16, SY17, SY18, SY21, SY22 | TF | LL11, LL12, LL13, LL14, LL15, LL17, LL18, LL19, LL20 | CH | L | WA | M | CW | SK1, SK2, SK3, SK4, SK5, SK6, SK7, SK8, SK9, SK10, SK11, SK12 | ST | DE1, DE3, DE6, DE11, DE12, DE13, DE14, DE15, DE21, DE22, DE23, DE24, DE65, DE73 | WV | WS | DY | B | CV1, CV2, CV3, CV4, CV5, CV6, CV7, CV8, CV9, CV10, CV11, CV12, CV13 | HR.

Charges

Charges may apply for small orders, please contact the sales office for details.

Delivery outside the UK mainland

Please contact our Sales Office Team for details of delivery outside the UK Mainland.

Check Availability

In exceptional circumstances some Items may have an extended lead time. Please contact us for more information.

Returns

If you have received damaged or defective products, we apologise in advance and ask you to please call us within 48 hours of receipt of delivery on 01743 242 900 to discuss.

Standard no-fault returns

Goods can only be returned up to 14 working days starting the day after delivery. Products are returned at your own cost, unused and undamaged in their original packaging. The goods remain your responsibility until the goods have been received on Maxpack's premises.

For returns to be processed and refunded, you need to request a returns note and clearly attach the resulting form to the outside of the goods. Goods must be returned in full pack quantities. We cannot offer any refunds on partial packs. Refunds don't include delivery charges. Maxpack will endeavour to process all returns within 3 working days of receipt of the return.

Maxpack standard conditions of sale are accessible using the following link: www.maxpack.co.uk/terms-conditions/
